

University of Toronto **Degree Programmes in Extension**

Summer Session 1973

Winter Session 1973-74

## University of Toronto Degree Programmes in Extension

The objective of the Division of University Extension is to make the resources of the University of Toronto available to adults who are prepared to engage in part-time study. The Division offers degree courses in three sessions: the Summer Evening Session (May 14 – August 17), the Summer Day Session (July 3 – August 17) and the Winter Session (September – May).

---

### Admission Requirements

---

There are two categories of students enrolled in degree programmes. The first category is composed of *Regular Students* who are proceeding to a degree of the University of Toronto in the Division of University Extension. The second category is composed of *Special Students* who are taking degree courses but are not proceeding to a degree of the University of Toronto in the Division of University Extension. These students will use the credits at other universities, or faculties within the University of Toronto.

Candidates for admission as Regular or Special Students may be admitted to the University of Toronto in one of the following ways:

- 1 With an Ontario Grade 13 certificate (or equivalent)
- 2 As a non-matriculant (mature) student with less than the full admission requirements. Such students are eligible only for the Regular Student category
- 3 With an acceptable degree from a recognized university
- 4 With an incomplete degree from a recognized university

In all cases, admission depends upon the candidate having a sufficiently high standing to compete successfully for one of the available places.

### ONTARIO GRADE 13 REQUIREMENTS

Admission to the first year of an undergraduate programme will be offered to candidates from Ontario secondary schools who demonstrate good standing, based upon the following evidence:

- 1 Completion of secondary school studies, including a full programme of academic work at the Grade 13 level
- 2 A recommendation by the secondary school last attended regarding probable success in university studies
- 3 A complete academic report for the three final years of secondary school
- 4 Results of standardized tests offered by the Service for Admission to College and University

Throughout the secondary school years students should study in as many of the following areas as possible: Eng-

lish; French and other languages; Mathematics; Sciences; Social Studies. Students should also consider carefully what aspects of their projected university work will entail prerequisite study.

Candidates are advised to include in their Grade 13 programme at least two of: English; French, or another language; Mathematics; Science. Certain university courses in Mathematics, Science, and Languages have Grade 13 prerequisites listed in the calendar.

Candidates who completed Grade 13 in 1971, or previously, should present a complete programme consisting of seven credits and including subjects as recommended above.

## **NON-MATRICULANT (MATURE) STUDENTS**

A candidate of mature age (twenty-three years of age or older on October 1 of the Winter Session, or July 15 of the Summer Session) who has lived in Ontario for a minimum period of one year, may request special consideration for admission if he has obtained high standing in at least one Pre-University Course offered through the Division of University Extension and obtains standing in such other tests as may be required. His previous secondary school record will also be taken into account. A birth certificate must be submitted by a candidate seeking admission as a non-matriculant (mature) student.

A candidate wishing to apply for admission as a non-matriculant (mature) student should consult the Office of Admissions about his eligibility before enrolling in one of the Pre-University Courses, since successful completion of a Pre-University Course does not in itself ensure selection. Degree Courses with scientific content such as those offered by the professional faculties often have additional entrance requirements. Detailed information may be obtained from the Office of Admissions.

## **ENGLISH FACILITY REQUIREMENTS**

Candidates whose mother tongue is not English may be required to meet an appropriate standard in a recognized test of English facility. Information about such tests is sent to any applicant of whom it will be required.

## **FACULTIES AND SCHOOLS**

### **Faculty of Arts and Science**

Candidates are advised to include in their Grade 13 programme at least two of English; French, or another language; Mathematics; Science. Certain university courses in Mathematics; Science; and Languages have Grade 13 prerequisites listed in the calendar.

*Non-matriculant (mature) Students* must offer high standing in at least *one* Pre-University Course.

### **Faculty of Applied Science and Engineering**

Candidates should have completed a full programme of study at the Grade 13 level including the following subjects: Relations and Functions, Calculus, Algebra; Physics; Chemistry. Superior students whose programmes do not include all of these subjects will also be considered.

*Non-matriculant (mature) Students* must offer high standing in *three* Pre-University Courses (or their equivalent), to include Chemistry; Mathematics; Physics.

NOTE: The first two years of all Engineering programmes except Engineering Science are offered through part-time study. The first year programme is available in both daytime and evening study, the second year in daytime study only. Students will be required to transfer to full time study after completion of the second year in order to continue with their degree work.

### **Faculty of Education**

Candidates must present an approved university degree and a permanent basic Ontario teaching certificate.

### **Faculty of Nursing**

Chemistry is required. Consideration may be given to superior students who lack Grade 13 Chemistry.

*Non-matriculant (mature) Students* must offer high standing in *two* Pre-University Courses (or their equivalent), one of which must be Chemistry.

NOTE: The first and second years of the B.Sc.N. degree course for graduates of diploma schools of Nursing are offered through part-time study. Students will be required to transfer to full time study after completion of the second year in order to continue with their degree work.

### **School of Physical and Health Education**

Candidates are advised to include in their Grade 13 programme two of: Biology; Chemistry; Mathematics and Physics. By means of a personal interview, a candidate will be evaluated with regard to his general health, activity background, leadership experience, and apparent ability to participate in the activities of the School.

*Non-matriculant (mature) Students* must offer high standing in at least *one* Pre-University Science Course (or an equivalent course), and will also be considered on an individual basis after a personal interview to determine suitability for admission.

NOTE: Students will be required to transfer to full time study after completion of the first year in order to continue with their degree work.

## **ADMISSION WITH ADVANCED STANDING**

An undergraduate of another university or of another faculty in this University may be admitted with advanced standing on such conditions as may be prescribed.

---

### **Application Procedures**

---

New students must apply for admission and provide evidence of meeting the admission requirements for their programme before registering for specific courses. It is recommended that prospective applicants make enquiries with the Office of Admissions. At this time, they will usually be sent a questionnaire to fill out for preliminary consideration. An official application will be sent if, after evaluation, a candidate appears eligible for admission.

A ten dollar (\$10.00) non-refundable service fee is required of all applicants except those in full time attendance in the final year of a Canadian Secondary School or those who have previously applied to the University of Toronto and paid the service fee. This fee must be remitted by money-order or certified cheque (payable to the University of Toronto) and must accompany the completed application.

Upon receiving a Letter of Admission from the Director of Admissions which indicates acceptance to the University, new students may register for specific courses.

## **REGULAR STUDENTS**

Documents to be sent with the application are:

- 1 An Ontario Grade 13 Certificate (or an equivalent certificate)
- 2 A birth certificate if seeking admission as a non-matriculant (mature) student
- 3 An official transcript of an approved university degree and a permanent basic Ontario teaching certificate if seeking admission to the Bachelor of Education programme
- 4 In the Degree Course for Graduates of Diploma Schools of Nursing, candidates are required to present an official transcript of their professional training
- 5 An official transcript must be submitted by applicants who previously attended a university

## SPECIAL STUDENTS

Candidates applying for admission as Special Students must submit a Special Student Application in addition to the required documents as shown above.

*Returning Special Students* should contact the Division of University Extension, (416) 928-2400.

Possession of the minimum admission requirements does not ensure selection.

## ACADEMIC COUNSELLING

Students entering the University for the first time should meet with an academic counsellor in the Division of University Extension to discuss their academic programme. Counselling hours are arranged to meet the requirements of each student and are held at 119 St. George Street. For counselling appointments or further information, telephone (416) 928-2400.

---

## Final Dates for Application

---

Both Regular and Special Students must send completed applications with the required documents to the Office of Admissions before the following dates:

Summer Evening Session / April 1  
Summer Day Session / May 15  
Winter Session / July 1

Applications for admission to the Faculty of Applied Science and Engineering may be submitted for the Summer Evening Session and for the Winter Session.

Applications for admission to the Faculty of Education may be submitted for the Summer Day Session and for the Winter Session.

Applications for admission to the Faculty of Nursing may be submitted for the Winter Session.

## ENQUIRIES

Full details on admission requirements are found in the *Undergraduate Admission Handbook 1974-75* which is available from the Office of Admissions, University of Toronto, 315 Bloor Street West, Toronto M5S 1A3, (416) 928-2190. All enquiries regarding admission requirements should be addressed to the Office of Admissions.

Students will be sent a calendar upon admission.

Courses are offered at the St. George, Scarborough, and Erindale Campuses.
